Say Hello To Sanctuary Pools!

Sanctuary Pools is the new name for a familiar team. Formerly known as Miami Pools, we've taken decades of local fibreglass pool know-how and rebuilt the experience around one simple idea: make your backyard a sanctuary, without the blow-ups.

We design and ship pools for real Australian backyards—big or compact, level or tight-access—so you get the style you want and a process you can trust. We work with trusted installers for fixed-price site audit scopes excavation, crane and plumbing, so whether it's on the manufacturing side or the installation, you are in good hands. Our crew delivers to a clear program with regular updates, from dig to splash.

You'll feel the difference in the details: shells engineered for Aussie soils, clean job sites, and a 30-year structural warranty you can actually understand. Prefer to stage the investment? We offer flexible finance with a quick pre-check.

Builders, landscapers and designers choose Sanctuary for the same reason families do—certainty. We support projects with spec-assist, method statements and site-ready documentation, and we coordinate seamlessly on tight sites to keep timelines moving.

This is pool building made clear: the right design for your space, a transparent scope, and an install that finishes when we said it would. Your place. Your pace.
Your sanctuary.

What we stand for

- Fixed-price certainty – no surprise variations after the audit
- On-time delivery – programmed installs with clear communication
- Tight-access specialists – lift planning and site protection
- Warranty & aftercare – 30-year structural cover and real post-handover support

Sanctuary Pools – fibreglass pools designed and installed across Sydney.

ZOE

The Zoe is the perfect medium-sized pool for those wanting a balance of style and simplicity. Measuring 5.2 m in length and 3.0 m in width, the Zoe offers generous space for swimming and relaxation while fitting seamlessly into most backyards.

A full-width bench seat at one end provides a comfortable area to sit back and unwind, while the clear, open swim area ensures plenty of room for play and exercise. Its rectangular design complements any modern outdoor space, delivering both function and aesthetic appeal.

Compact yet inviting, the Zoe makes it easy to enjoy the essence of outdoor living — every day.

SIZES

Length	Width	Depth
5.4m	3.0m	1.2m
4.8m	3.0m	1.2m
3.2m	3.0m	1.2m
2.6m	3.0m	1.2m
3.2m	1.9m	1.2m

PROFILE

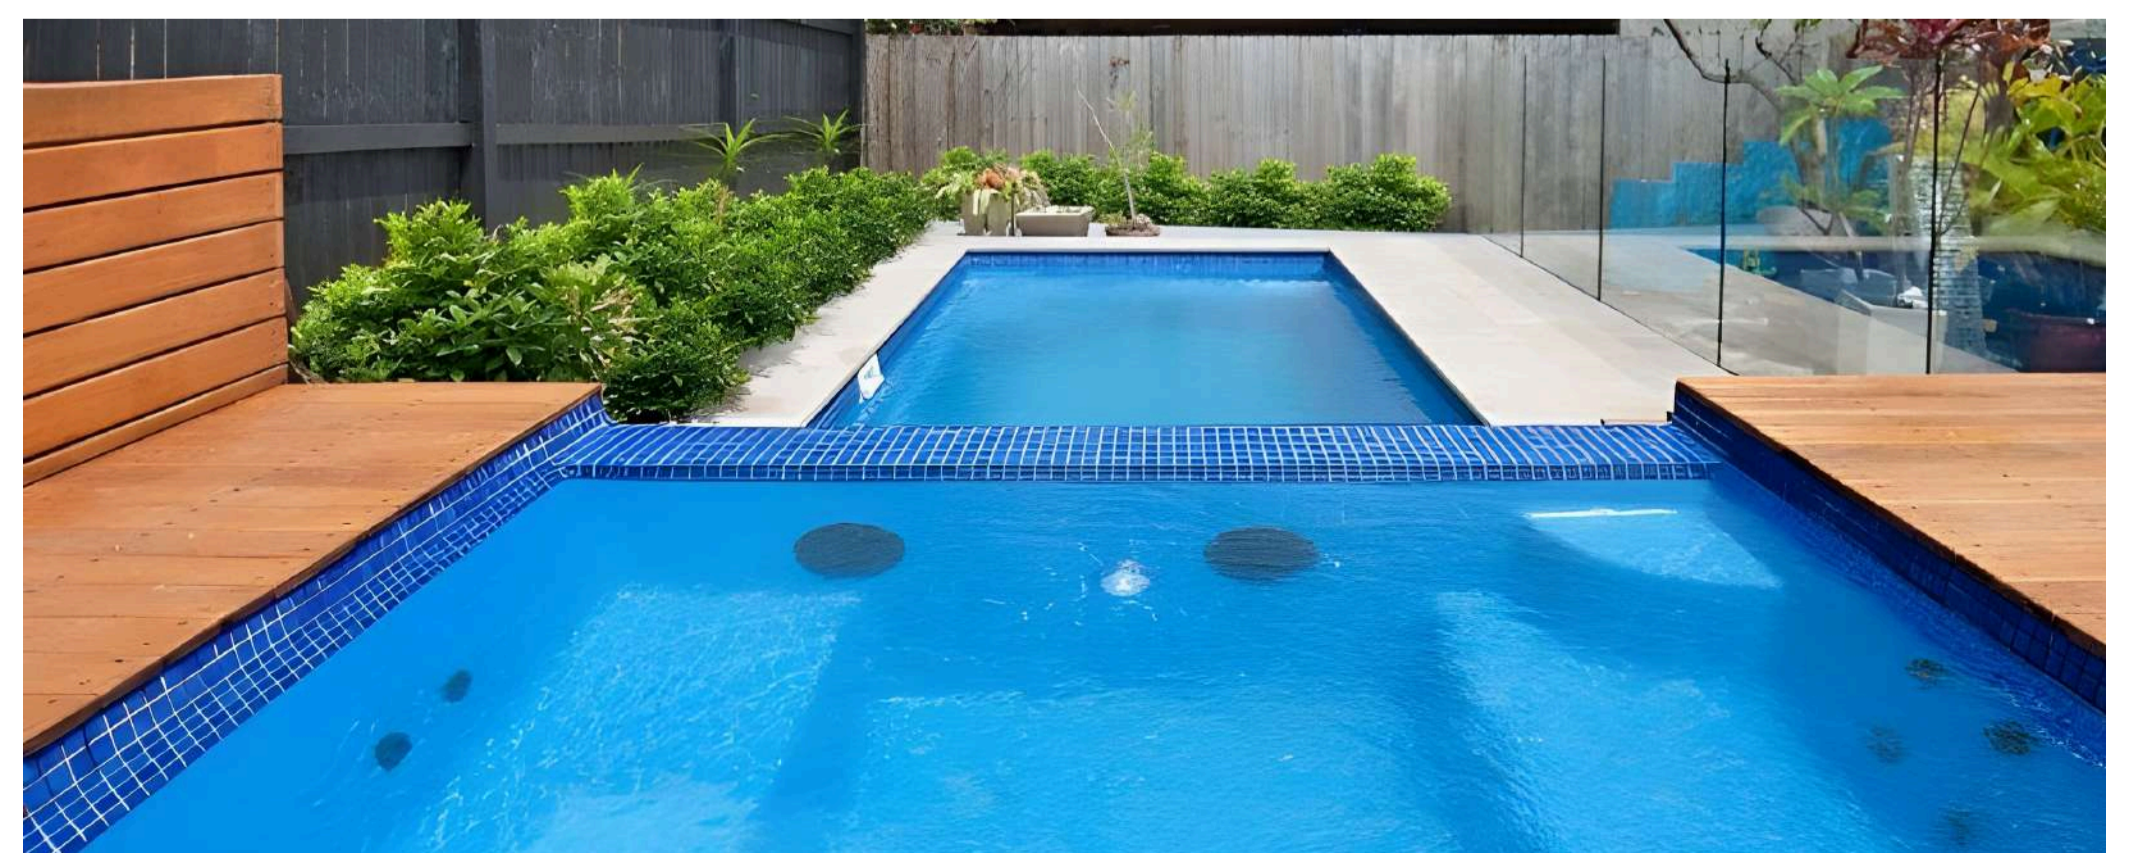

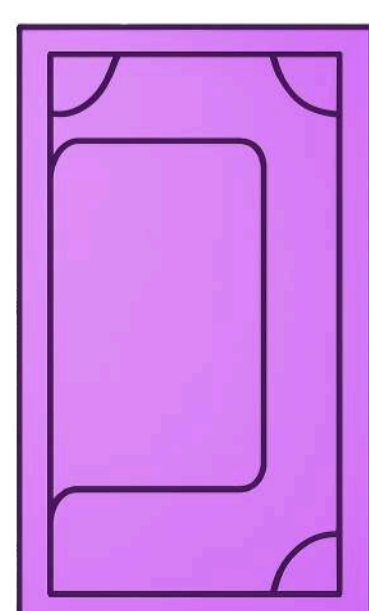

REBECCA + AMIE

The Rebecca–Amie Combination represents the pinnacle of contemporary outdoor design — where seamless luxury meets intelligent functionality. By pairing the elegant Rebecca frame (6.0 m x 2.5 m, depth 1.3–1.89 m) with the Amie spa frame (1.8 m x 2.3 m, depth 0.82 m), this design delivers a sophisticated dual-zone experience unlike any standard pool layout.

The result is a refined retreat that transitions effortlessly from invigorating swims to tranquil relaxation. Clean lines, perfectly balanced proportions, and complementary depths create a unified aesthetic that elevates any outdoor space.

Crafted with precision and purpose, the Rebecca–Amie combination embodies the essence of elevated living — a statement piece designed for those who value style, comfort, and connection.

VANESSA

The Vanessa is a beautifully proportioned pool that combines elegance, comfort, and functionality. Measuring 7.0 m in length and 3.4 m in width, the Vanessa offers a spacious swimming area suited to both relaxation and recreation.

A defining feature is its interior edge with two opposing platforms, designed to create inviting zones for seating, play, or easy entry. This flowing design maintains a sleek aesthetic while enhancing comfort and usability. The gradual depth transition from 1.205 m to 1.620 m ensures a smooth and versatile swimming experience for all ages.

Modern, refined, and effortlessly practical – the Vanessa is the perfect centrepiece for any contemporary Australian backyard.

SIZES

PROFILE

Length	Width	Deep End	Shallow End
7.00m	3.40m	1.620m	1.205m

TANIA

The Tania is a beautifully balanced medium-sized pool that combines clean geometry with practical design. Measuring up to 6.0 m in length and 2.5 m in width, with a depth of 1.3 m, the Tania offers generous space for swimming, leisure, and entertaining.

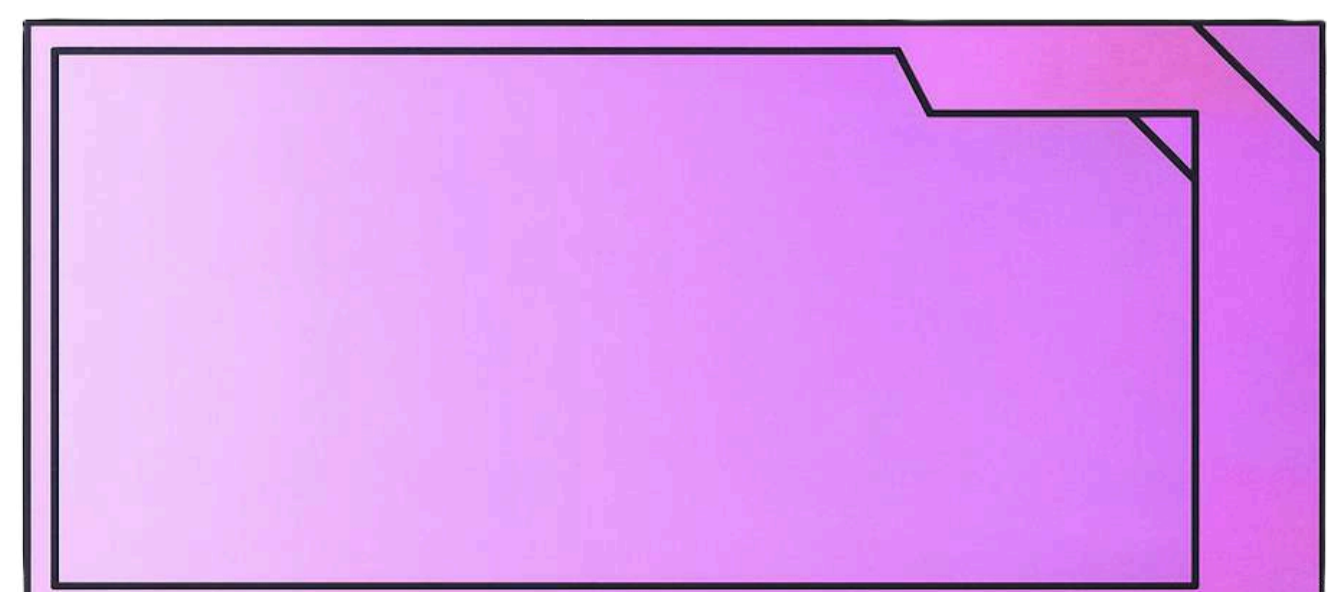

Sharing the refined shape of the Rebecca, this design features straight lines and a versatile layout that suits both modern and traditional backyards. Its elongated form creates a stunning visual statement while remaining functional for family use and easy maintenance.

Sophisticated yet understated, the Tania captures the essence of relaxed Australian living – a pool designed for style, comfort, and everyday enjoyment.

Our Fibreglass

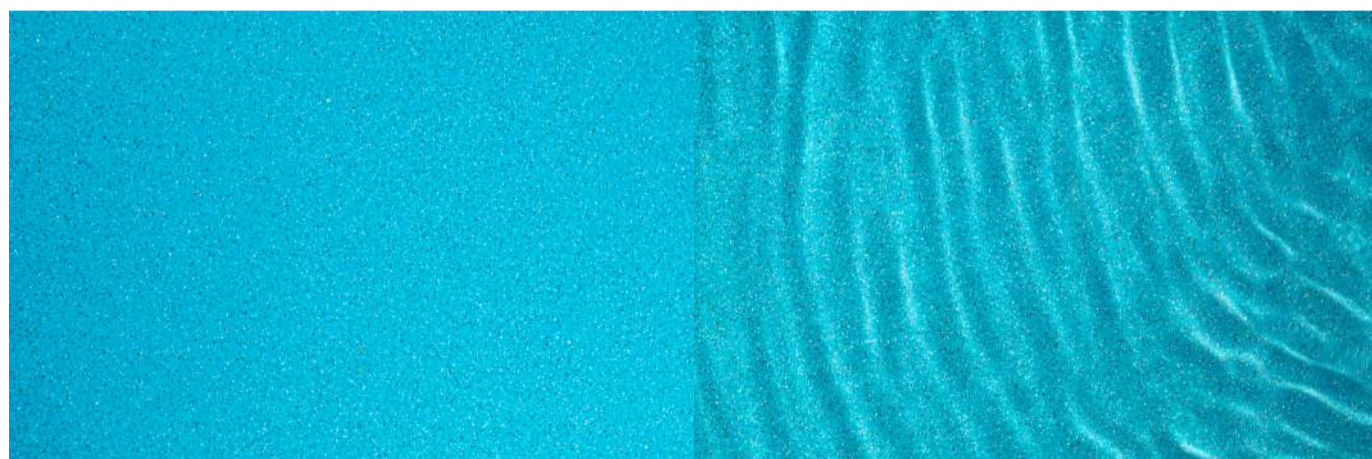

Built for Sydney backyards. Engineered for decades.

- Layer 1 – Interior Surface Finish
 - A UV-stable, chemical-resistant interior finish that holds its colour and gloss in the Australian sun and with regular sanitising. Smooth to the touch for easy maintenance.
- Layer 2 – Anti-Corrosion Barrier
 - Premium resin barrier that promotes adhesion to the colour layer and adds extra defence against chemical attack and water ingress.
- Layer 3 – First Structural Laminate + Chemical-Resistant Laminate
 - High-strength laminate reinforced with advanced E-glass fibres for early-stage rigidity, impact resistance and added protection in aggressive water chemistry.
- Layer 4 – Second Structural Laminate
 - Additional structural laminate to build stiffness and distribute loads evenly across the shell. No filler powders; just strength where it matters.
- Layer 5 – VINYL ESTER REINFORCEMENT (Sanctuary Advantage)
 - A full 10 mm Vinyl Ester core – around 50% thicker than many competing shells – specified for superior resistance to osmosis, heat and chemical attack.
 - What it means for you:
 - Less risk of blistering/osmosis over time
 - Better durability under high summer temperatures
 - Greater tolerance to water-balance swings
 - Longer life, less headache
- Layer 6 – Outer Core Laminate
 - A high-performance sandwich laminate inspired by marine and performance craft, adding torsional strength without unnecessary weight.
- Layer 7 – Outer Sealer Coat
 - Tough, high-quality sealer to protect the laminate from abrasion and environmental exposure during transport, craning and installation.
